I have examined the accounts of the Selectmen, Treasurer and Board of Education, and believe them to be correctly cast and vouched.

All of which is respectfully submitted,

DANIEL C. CLARK, Auditor.

REPORT OF THE VISITING COMMITTEE.

Agreeable to custom, I herewith offer the following report of the school work for the year just closed and also offer some suggestions which I believe, if adopted, would tend to increase the efficiency of our School system.

The schools at the Street have been in charge of the same teachers

this year as for several years past. I believe their work has proven satisfactory to a majority of the people most interested. The Primary School at the Ville is still under the instruction of Miss Edyth M. Clough and the past year has been no exception to this teacher's usual success. Miss Florence A. Russell had charge of the Grammar room during the Spring term. Miss Russell declined to accept the position of teacher here for the Fall term though strongly urged to do so. The school board was fortunate, however, in securing the services of Mr. W. R. Harris as teacher who has conducted the last two terms with credit to himself and profit to his pupils.

The Davistown school has been under the instruction of Miss Gertrude Johnson who seemed to gain the goodwill of both parents and pupils. This coupled with Miss Johnson's own industry and aptitude for teaching has made the past year a satisfactory one in this division.

The Spring term at the Upper Street was in charge of Miss Edith F. Smith who was well liked by most of the pupils but who seemed to lack the ability to so manage the school that it could make satisfactory progress. Miss Grace M. Avery was the teacher during the two remaining terms. This teacher worked hard to score a success but it did not have the support that she deserved from either pupils or parents. On the whole results in this division for the year have been disappointing.

The report of the truant officer shows that there were 154 children resident in town in October, 1905, between the ages of five and sixteen years. This officer has attended to his other somewhat more disagreeable duties in a manner entirely satisfactory of the school board during the past year.

"The Constitution of New Hampshire" (Gault & Spaulding) and "How the People Rule" (Hoxie) have been introduced as text books.

As usual, the matter of transportation for those pupils who live at a distance from the schools has been the most perplexing thing with which the school board has had to do. There are not enough school buildings in town and I would urge favorable action upon that article in the warrant relating to this matter.

The school year has been lengthened to thirty-three weeks because of the increase in the amount of school money now required to be raised by law. Should the district vote to raise in addition to that now required by law an amount equal to what has been raised in recent years a longer school year than now can probably be had.

I would also especially call attention to the article in the warrant

relating to a Supervisory district. The idea involved has worked out well where it has been tried and might prove especially valuable here. I hope all interested will so inform themselves that they may vote understandingly on this matter.

For information concerning the financial condition of the district you are respectfully referred to the Treasurer's report.

Respectfully submitted,

EDWARD P. STONE.
